

## 令和3年度 英語 実技検査（リスニングテスト）

### Listening Comprehension Test

#### <Directions>

Please open your test.

You are going to have a Listening Comprehension Test. This test consists of two parts: Part 1 and Part 2. All of the questions in the two parts are multiple choice questions. For each question, there are four possible answers written on your question sheet, labeled 1, 2, 3 and 4. You must choose the best answer for each question. Indicate your choice by marking the correct number 1, 2, 3 or 4 on your answer sheet. You may take notes while listening.

Now, here are the directions for Part 1. In this part, you will hear 8 dialogues, No. 1 through No. 8. Each dialogue will be followed by one question. For each question, you will have 10 seconds to choose the best answer. The dialogue and the question will be read only once.

Now we will begin Part 1.

1

W: Mr. Ono, I heard that you took a solo trip to a jungle in Malaysia. How was it?

M: It was really exciting. Here are some pictures I took there.

W: Wow. What a deep forest! What is this wooden house?

M: It's the cabin where I stayed. It was built to watch wild animals such as elephants or tigers.

W: Did you see wild tigers?

M: Around midnight, I heard something moving outside the cabin but it was pitch-dark so I couldn't figure out what it was.

W: So you didn't see any animals from the cabin?

M: No, but I could see many fireflies inside the cabin.

Question: What do we learn about Mr. Ono?

2

W: Here we are! The flight was so long! I'm hungry now. How about you, Tyler? Which do you prefer, having lunch first or going to the hotel to leave our baggage?

M: It's ten to twelve. I'm hungry, too, but shall we go to the hotel and leave our baggage first?

W: Alright. So let's go to the subway station. Come this way.

M: Wait, Sarah. This sign says there is a shuttle bus service available to certain hotels. Let's check this first.

W: Yes, of course. Oh, look! Our hotel offers this shuttle bus service. The shuttle bus operates once an hour so the next bus will come in forty minutes. What should we do?

M: If we go by subway, we have to walk about 15 minutes from the station, so how about having lunch while we wait for the shuttle bus?

W: That's a good idea.

Question: What will Tyler and Sarah probably do next?

3

W: Edward, here is your timetable.

M: Thanks, Ms. Yoshida. What does this "S&W" mean?

W: Oh, it's speaking and writing. It's a team-teaching class with you and me. My plan this year is to do speaking lessons and writing lessons in two-week rotations.

M: You mean we do speaking lessons for two weeks and then do writing lessons for another two weeks, right?

W: That's right. Students are supposed to do research on a certain topic and make a short speech on that topic and then write an essay about it. All interactions are going to be in English if possible. What do you think?

M: That sounds interesting. So you want me to help students use English as much as possible?

W: Exactly.

Question: What do we learn about Edward?

4

M: Yui, this is a present for you.

W: Oh, thank you so much. What is it?

M: It's oil made from camellia seeds. It is a versatile oil that can be used on your face, hair, scalp and body to moisturize and, what is more, it's edible.

W: What do you mean?

M: You can use it when you cook as a hidden flavor or just add it to what you eat.

W: Sounds great. Where did you buy it?

M: I got this in Nagasaki though there are some other places to get it in Japan.

Question: What is true about the oil?

5

W: Can you spare me a minute, Mr. White?

M: Of course. What's the matter?

W: I'm hesitating as to whether I should tell you or not but...I'm bothered by some of my co-workers.

M: Is there a problem with them?

W: They chat to each other very loudly in the staff room.

M: Do they chat to each other so loudly while on duty?

W: Yes. Yesterday, while I was consulting with one of my clients on the phone about our new product, they were practicing using the web meeting system so loudly just behind me that the client's voice was almost inaudible!

M: Oh, I see. I'll talk to them directly.

Question: What problem did the woman have?

6

W: May I help you, sir?

M: Yes. I'm looking for a suit. My wife has some custom-made suits from here and she recommended you to me.

W: Thank you very much. What type of suit are you looking for?

M: In summer, I don't have to wear a jacket so I'd like one that is suitable for autumn and winter seasons.

W: I see. Here are some sample colors of a cloth made of 100% wool. It is comfortable and warm. Please take a look at these.

M: Oh, I can't decide which to choose. If only my wife were here.

W: If you register your personal information like your height, chest and waist with our membership club now, you can order anytime you like through our online store.

M: I think I should do that.

Question: What does the woman suggest the man to do?

7

M: This is my first visit here and I don't have an appointment today but is that ok?

W: Sure. Come in. How can I help you?

M: I hit my left knee hard when I fell down three days ago. It hurts very much.

W: I see. Then, please fill in this medical questionnaire.

M: OK. I have one more question. This happened on my way home from work so all of my expenses will be covered by the compensation system. How can I apply for that?

W: In that case, you need to fill out this medical expenses invoice and hand it in to us. With this document, we can request the compensation fund to pay us directly in place of you.

M: You mean if I hand in this document today, I don't have to pay my bill today?

W: No, you have to pay for today but it will be reimbursed to you later.

Question: What do we learn about the man?

8

M: Have you decided the topic for the presentation assignment next month?

W: Yeah, I'm thinking about something to do with hygiene.

M: Hygiene? Please tell me more.

W: It is said that handwashing with soap is one of the most effective barriers to the spread of diseases but two out of five people in the world live without basic handwashing facilities at home.

M: That much?

W: Furthermore, it is also said that more than 800 children under five die every day due to poor sanitation, poor hygiene, or unsafe drinking water in the world.

M: Is there anything that we can do about it now?

W: That's exactly what I'm going to focus on in my presentation.

Question: About what percentage of people in the world do not have basic handwashing facilities at home?

<Directions>

Here are the directions for Part 2. In this part, you will hear two passages, No. 1 and No. 2. Each passage will be followed by two questions. For each question, you will have 10 seconds to choose the best answer. The passage and the questions will be read twice.

Now we will begin Part 2.
